DESCRIPTION

Our enclosed patio space offers a multitude of options. On the Western side we have tables that can be used for seated dinners, or they can be removed to create an open space for any event. The Eastern patio is host to two sets of couches that are popular for all sorts of events, from small intimate gatherings to large celebrations. The whole Patio can be used for larger events as well. The patio has a glass roof which allows sunshine, but will keep you dry in the wetter seasons.
